

Facility Annual Operating Costs

Class	InstallationReportingComponentCode	InstallationCode	CostCategory	ResourceType	TreasuryCode	ProgramElement	FY2016
-------	------------------------------------	------------------	--------------	--------------	--------------	----------------	--------

Instructions

- 1) Executive Order (E.O.) 13327, Federal Real Property Asset Management, directs the Department of Defense to report to OMB select real property inventory data to include annual operating and maintenance costs for real property assets owned, leased and otherwise managed by the Department.
- 2) Provide by Installation Reporting Component, Installation Code, and Cost Category the actual annual operating costs (i.e., cost expended on facilities maintenance and repair and utilities) for assets owned, leased or otherwise managed by your organization directly supporting the operations and maintenance of facilities at DoD Installations or commercial locations. Cost reported by the Installation Reporting Component will include the costs expended by all tenants of the installation.
- 3) Report actual costs (TOA) by Treasury Code and Program Element (PE). Service totals by TC and PE should not exceed the totals submitted through the Comptrollers Program Resources Collection Process (PRCP) reporting application.
- 4) Report the following funding types - O&M, WCF, RDT&E, and Family Housing (FH). Include Host Nation and Non-federal Domestic Facilities Contributions.
- 5) Report TOA costs in Thousands (\$000).
- 6) Organizations required to support this exhibit are shown in SNaP Appendix A.

Definitions

Class: System Field: Classification

F: FOR OFFICIAL USE ONLY

U: UNCLASSIFIED

InstallationReportingComponentCode: Closed List. The Installation Reporting Component reporting facility AOC to include costs expended by the tenants on facilities maintenance and repair and/or utilities.

AFACT: Air Force Active

AFGUARD: Air Force Guard

AFRES: Air Force Reserve

ARACT: Army Active

ARGUARD: Army Guard

ARRES: Army Reserve

DLA: Defense Logistics Agency

MCACT: Marine Corps Active

MCRES: Marine Corps Reserve

NAVACT: Navy Active

WHS: Washington Headquarters Services

InstallationCode: Closed List. The parent Installation of the site. The reported installation AOC represents the sum of subordinate sites annual operating costs.

CostCategory: Closed list. The cost/expense category associated with facility operating and maintenance costs which supports recurring facility maintenance and repair costs and utilities.

Facility Operations (Utilities Only): Utilities consist of various power sources and commodities that provide energy to an installation and its real property facilities. Includes purchase costs of all water, electricity, natural gas, sewage disposal, as well as other commodities purchased (utility fuels, natural gas, coal, coke, etc.) to locally produce utilities for heating (e.g., steam) and power production for real property facilities.

Facility Sustainment: Provides resources for maintenance and repair activities necessary to keep facilities in the Departments real property inventory in good working order. It includes regularly scheduled adjustments and inspections, preventive maintenance tasks, and emergency response and service calls for minor repairs. It also includes major repairs or replacement of facility components (usually accomplished by contract) that are expected to occur periodically throughout the life cycle of facilities. This work includes regular roof replacement, refinishing of wall surfaces, repairing and replacement of heating and cooling systems, replacing tile and carpeting, and similar types of work. It does not include certain restoration, modernization, and environmental compliance costs which are funded elsewhere. Other tasks associated with facilities operations (such as custodial services, grass cutting, landscaping, waste disposal, and the provision of central utilities) are also not included. This program supports all facilities reported in the real property inventory for which the Facilities Sustainment Model provides a funding requirement estimate; it excludes unreported facilities or any other facilities for which the Facilities Sustainment Model does not estimate a funding requirement.

ResourceType: Closed list. The resource funding type Base or Overseas Contingency Operations (OCO).

Base:

OCO:

TreasuryCode: Treasury Code is a defined set of four-to-six digit numeric codes from the Comptroller that identifies resource types. The list of Treasury Code values can be found on the SNaP website by clicking the "Instructions" tab, then selecting "Documents". (<https://SNaP.CAPE.OSD.MIL>).

ProgramElement: The Program Element is a primary data element in the Future Years Defense Program (FYDP) and generally represents aggregations of organizational entities and related resources. The PE is up to ten-digits in length, a seven-digit numeric identifier followed by up to three-digits alphanumeric code for FYDP organizations. The list of Program Element codes and titles values can be found on the SNaP web site <https://snap.cape.osd.mil> by selecting the Instructions/Documents menu.
